## Winnipeg Strike Has Been Called Off

### Manitoba Government to Appoint a Commission to Investigate

The sympathetic strike at Winnipeg was called off Tuesday night and the men will return to work today (Thursday), at 11 o'clock, by order of the strike committee. The strike has been effect for six weeks.

## Riot and Bloodshed In Winnipeg Saturday

### Riot Act Was Read and the Military Clash With the Mob

As was generally expected, the great strike that has been going on for the past four weeks came to a showdown on Saturday afternoon and resulted in fierce street fighting in which one man was killed, a number wounded and over one hundred under arrest.

The Mayor's statement of the outbreak is as follows:

Last evening a meeting of about 2000 people was held in Market square behind the city hall. Several speakers made some inflammatory speeches inciting to riots, the gist of these remarks being that the mayor's authority must be set aside and a parade held in defiance of the law. Before going home I gave a proclamation to the press, as follows:

"The proclamation issued by me some days ago must be strictly adhered to. It has been brought to my attention that a parade of men, women and children is proposed for today. I hereby reiterate my former proclamation, that there shall be no parade until the end of the strike. Any women taking part in a parade do so at their own risk."

In defiance of this order from constituted authority the crowd continued to put their threat into force and parade. The appearance of a street car on Main street and through the crowd was the signal for an outburst of rioting by stopping the car and cutting the trolley rope and stones thrown. Just then N.W. Mounted Police and the Fort Garry Horse came along taking in the full width of the street. The mob surged in on the flanks of the horsemen and a free throwing of bricks, bottles and any other available missile began, many of the horsemen being struck. They rode on, however, north several blocks and then quickly returned with drawn truncheons and divided up into columns of four on each side of the street, sought to drive the mob back on to the sidewalks.

Then the ugly crowd proceeded to wreak vengeance on the street car. The conductor and motorman fled, but not before every bit of glass had been broken. The doors were then smashed open and a few minutes later the car was set on fire, this only after unavailing efforts on the part of the crowd to overturn it.

Hardly was the car demolished when the red coats appeared again from the south, this time at the charge. They rode down the mob, which scattered to the sidewalk, but as they passed they received an even greater volume of missiles. Many of the horses by this time were wild and the troop seemed out of hand as

it galloped north on Main street. "That's the end of them. We will now get on with our silent parade. They thought they could stop us, but will show them who are the masters of the streets of Winnipeg," said one of the strikers.

Again the cavalry returned, but not in good line and their horses out of control and some of the riders ducking to cover behind their saddles to escape brickbats and other missiles. As they divided to pass the burnt car the inevitable happened. One of the horses came down, bringing his rider with him, and who was the last man in the file. A fierce yell arose from the crowd and an effort made to seize the soldier. He made his escape into a store, followed by the mob, but managed to escape and sought shelter across the street. Here he was intercepted and carried back a little way out of sight.

Then followed the shooting. Almost immediately a squad of the Northwest Mounted Police returned to the rescue of their comrade, with their revolvers drawn and in columns of four and soon shots were heard. "They are firing into the air," said one of the crowd. "They have only blank cartridge," said another.

The effect was electrical. The crowd scampered for shelter from the fire of the Mounties, and ran into lanes, hallways, etc. Inside of three minutes city hall square was empty. Here was brought the killed and afterwards taken to an undertaker on Main street. Immediately a strong patrol was placed on the square, but everything has been quiet since and likely to remain so.

The result of the clash between the military and the strikers is the following statement issued by the authorities:

Twenty four wounded now lie in the General hospital and two are expected to die. Three more are in St. Boniface hospital, and several in the Military hospitals and police stations.

### KILLED.

Mike Shodelick, shot through the heart and instantly killed. Shot in the act of throwing stone at mounted policeman.

### INJURED.

## The Winnipeg Strike

The attention of all Canada is focussed on the city of Winnipeg, which since May 15 has been in the throes of the greatest industrial strike ever known in the history of this Dominion. The strike had its origin ostensibly in the failure of the metal trades employers to recognize the metal trades council, representing the metal trades workers, and, in order to assist these workers in their fight for recognition, a general sympathetic strike of all workers in Winnipeg was called by the Winnipeg Trades and Labor Council.

The claim of the strike leaders is, therefore, that they are fighting for recognition of the right of labor to organize, to engage in collective bargaining, and for a living wage for all workers. But their actions belie their words.

The right of labor to organize in craft unions, to engage in collective bargaining as it has always been understood in the past through such unions, and to a living wage, is not denied nor challenged. On the contrary, it is frankly and openly admitted.

But certain revolutionary leaders who have succeeded in obtaining the upper hand in labor circles in Winnipeg now insist that collective bargaining shall be understood as meaning the right of all workers to organize in One Big Union and to compel all employers of labor to deal with that union rather than with the craft unions to which the men they employ belong. And in order to enforce this revolutionary change, and destroy all international labor unions as now constituted and managed, they ordered the complete tie-up of the city of Winnipeg and attempted to deprive the people of all public utilities, and even the necessities to sustain life itself.

The establishment of the One Big Union, and all that its leaders declare it stands for, including the abolition of all production for profit, the nationalization of all industry, including all land, the release of all political prisoners, including active alien enemies, the establishment of a six-hour work day and a five-day week, can only be brought about by a complete revolution in our present system of responsible democratic government and the substitution thereof of the soviet system of government as they have it in Russia.

The sympathetic strike in Winnipeg, and the strikes called in sympathy with it in other western cities, is, in reality, the One Big Union in actual operation, and aims at the overturn of properly constituted governmental authority as we have it in this country. The declarations of the strike leaders make this very clear, and, after studying the situation, two members of the Federal Government, including the Minister of Labor, himself a union man, have become convinced of this fact. Furthermore, in the early days of the strike the strike leaders actually usurped the functions of the Dominion, provincial and municipal authorities, while their recognized chief, Rev. Wm. Ivins, declared that the government of Winnipeg "had been transferred from the City Hall to the Trades Hall."

It is a revolutionary movement, and unfortunately, a large number of the organized labor unions have been led into it innocently and are being used by these men of Bolshevik ideals. The same leaders of labor are opposed to the One Big Union and the general strike in Winnipeg. They are doing all they can to combat these revolutionary movements, while citizens generally are alarmed and have organized to defeat the attempt to overthrow constitutional government in this country.

The time has arrived when the Federal Government must bestir itself to control these Red agitators and revolutionists, and if they cannot be controlled they should be deported. They represent a small but noisy and dangerous element in the country, and wherever they obtain control over a group of individuals or an organization there is bound to be trouble.

In these days following the war, and the difficulties and burdens which that great struggle has imposed upon all nations and peoples, Canada included, it is all important that in working out needed reforms we should be constructive, not destructive, that we should follow the safe path of evolution, not revolution, and that all should recognize the fact that it is the first duty of every man and woman to devote their best thought and energies in the direction of the highest possible maximum of productive effort.

**Cheapest of All Oils.**—Considering the curative qualities of Dr. Thomas' Electric Oil it is the cheapest of all preparations offered to the public. It is to be found in every drug store in Canada from coast to coast, and all country merchants keep it for sale. So being easily procurable and extremely moderate in price, no one should be without a bottle of it.

## AFTER EFFECTS OF INFLUENZA

Often as Serious as the Disease Itself  
How to Get New Health

There are few homes in Canada that were not touched by the sorrow that trailed in the wake of the Spanish Influenza epidemic. Estimates of the loss of life caused by this epidemic show that it was almost as great as the losses caused by the war, and these take no account of the baneful after-effects which are sometimes as fatal as the disease itself.

Victims of the disease are generally left with impoverished blood, and a weakened system. In this condition they are exposed to many dangers unless precautions are taken to enrich the blood and strengthen the nerves. The debility that invariably follows influenza is not a disease of any organ. It is a general condition of unfitness. It must be met by a remedy whose good results will be quickly felt throughout the entire system. In this condition Dr. Williams' Pink Pills will be found invaluable. The mission of this medicine is to enrich the blood and this new, red blood carries renewed health and strength to every part of the body. The case of Mrs. George Louder, Hamilton, Ont., proves the value of Dr. Williams' Pink Pills in cases of this kind. Mrs. Louder says: "I had a very severe attack of Spanish influenza, which left me pale and very weak. My appetite completely failed me and the least noise would startle me and make me cry. I was under a doctor's care, and finally he advised me to take Dr. Williams' Pink Pills, and I had not been taking them long before I could tell they were helping me. I used altogether nine or ten boxes and am now feeling as well as ever I did in my life. I believe if it had not been for these pills I could have been a chronic invalid."

Such proof as this must be interesting to everyone who suffered from an attack of influenza, and who still feel in any way weakened as the result of the trouble. It points the way to new health and strength, and if you are one of the sufferers you should avail yourself of this medicine at once. You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50 cents a box, or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

## Poles Are Blamed For Massacres

Washington, district of Columbia.—Information regarding numerous Jewish massacres in central and eastern Europe during last March and April, forwarded by special representatives of Jewish relief organizations, was presented to the State Department by Isaac Siegel, Congressman from New York. Names of 54 Jews who were massacred were given in the reports, which said many hundreds more about whom there was no definite information were killed.

## GIRLS! LEMON JUICE IS A SKIN WHITENER

How to Make a Creamy Beauty Lotion for a Few Cents

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

## Germany Will Sign the Peace Treaty

### Premier Bauer Protests Against the Severity of the Terms

The German Government at Weimer it is officially announced, will sign the Peace Treaty tomorrow (Thursday) and thus end the last chapter in the world's greatest tragedy, which it is hoped will be the last.

In announcing the decision of the government before the national assembly, Premier Bauer said:

"At this hour of life and death, under the menace of invasion, for the last time I raise in free Germany's behalf a protest against this mockery of self-determination, this enslavement of the German people, and this new menace to the peace of the world under the mask of a treaty of peace."

"No signing can enfeeble this protest which we raise and swear to. The treaty does not lose annihilating character by alterations in details. Protesting against it is useless and it is at the risk of a new crisis within 48 hours."

## Some Famous Auto Pilots at Calgary Fair

Luminaries of the gasoline world will battle on the track at Calgary Exhibition on Friday and Saturday, July 4 and 5, for \$4000 in cash prizes and also the honor and glory that usually goes to the victor. The entry list contains the names of eight of the most famous pilots on the circular courses, and Manager E. L. Richardson of the Exhibition is proudly boasting that he has landed the "cream" of the driving talent.

Such noted Mercurian monarchs as "Wild Bill" Endicott, Jules Ellingboe, Dave Koetzla, R. Burr Lumpkin, Irvin Hoffman, Ray Claypool, Joe Fesser and Joe Cooper will face J. Alex. Sloan of Chicago, in the first event on Friday. Endicott, Ellingboe and Koetzla have countless admirers among the racing enthusiasts of Calgary and vicinity, as they have displayed their driving ability in previous meets.

The cars that will compete include a Briscoe, Hudson, Rahe Special, Lorraine Special, Case Comet, Italian Buggati, Mooney Special, and an "S. X." Special. Seven events are listed on the programme daily, and the races will start promptly at 2:30 o'clock.

## A Stiff Punishment For Horse Stealing

At Lacombelast week a man named Sweitzer received a sentence he will not likely forget for the remainder of his life, and should be a warning to thieves. In 1916 he stole a horse and saddle from Eugene Skeels and M. L. Frizzel of Rimby, then he disappeared and for more than three years the provincial police have been trying to locate him. They were successful a short time ago and found him at Brooks. He was arrested and taken to Lacombe for trial, and Judge Mahaffy sentenced him to five years on the horse-stealing case and one year for the saddle case. The sentences to run concurrently.

## Riot and Bloodshed In Winnipeg Saturday

(Continued from Page 1)

Two of the shot cases, one of which is a wound through the breast, coming out by the neck, and another man shot in the abdomen, are not expected to recover.

One of the badly injured, and who is not expected to live, is R. Ramsay. He was shot in the right breast, the bullet leaving near the shoulder.

At the St. Boniface hospital one case is that of a man badly hit on the head by a brick, thrown by a striker, this being the most serious of three cases treated, the others being able to leave the hospital.

Nearly all of the 300 prisoners taken are of alien birth and most of those injured, except the police and soldiers.

## Stops Stomach Gas Prevents Fermentation Aids Digestion

If fermentation of food in the stomach can be prevented, you go a long way towards stopping the most frequent ailment of the day. Doctors who have studied the formula of Dr. Hamilton's Pills say it would be difficult to find a remedy better adapted to stomach ailments. After once using Dr. Hamilton's Pills the stomach is cleared of the sour, fermenting matter that causes gas, heartburn, indigestion and headaches. You will be pleasantly surprised at the smooth, easy way in which Hamilton's Pills tone up the liver, kidneys and stomach.

It's really wonderful the improvement in appetite, in complexion, in general well-being that results directly from the use of Dr. Hamilton's Pills. They stop dizziness, nausea and swelling of the stomach, they correct constiveness, bad dreams and blotchy skin.

To strengthen the muscular system, to bring a keen edge to the appetite, elasticity to the step and brightness to the eyes, nothing can compare with Dr. Hamilton's Pills. Sold everywhere in 25c boxes.

## Value of C.P.R. Land Grant

Misconceptions of the Value of Subsidies Given the C.P.R.

The Montreal Gazette, in discussing the value of the original land grant to the C.P.R., says in part:

In discussion of the railway problem in Canada the traditional misconception of the value of subsidies given the Canadian Pacific Railway persists. At the recent meeting of Grand Trunk shareholders in London, the chairman, Mr. Smithers, more than once alluded to three subsidies as having a value of \$350,000,000, and the Toronto Globe, distorting facts and presenting half-truths, thus comments:

"Where did the Canadian Pacific get this princely heritage of land, greater in extent than some of the European kingdoms, for the possession of which the great war was fought? From the people of Canada, as a free gift, to enable the company, by providing cheap and adequate railway service to open up the West for settlement. And have the proceeds of this vast land grant been devoted to the intended purpose?"

"Let us look the situation squarely in the face. As a railway living on its own earnings the Canadian Pacific might be able to pay six per cent. a year upon the capital actually invested in it by its shareholders. As the most richly-dowered corporation on earth, by drawing upon its vast landed estate, it actually pays ten per cent."

"Almost all of this vast landed estate came to the Canadian Pacific from the people of Canada without the payment of a dollar, either in acquiring title or in taxation, during the long period in which the land lay ripening, acquiring value, from the labors of the early settlers, who proved its worth."

The Canadian Pacific did not receive a single acre of land from the people of Canada as a free gift; to assert otherwise is a misnomer of words. The railway company acquired the lands as a matter of contract, and did not come into possession of the lands until the contract was fulfilled. The Government, representing the people, desired the construction of a transcontinental railway, partly in compliance with the terms upon which British Columbia entered confederation, partly for the settlement of the northwest, and partly to cement the union. The government, therefore, entered into a bargain with a syndicate of gentlemen of wealth, patriotism and enterprise, to construct a railway from Montreal to Vancouver, agreeing to pay them for the work in cash, in land and in two partially-built sections of the line. Neither the money nor the land, nor the links which began nowhere and ended in the same place, was a free gift. It was payment for work to be performed, and had the work not been

performed, no payment would have been made. It was no more a free gift than is the money a merchant pays a contractor for the erection of a warehouse. The Globe prates about the princely heritage of land possessed by the Canadian Pacific. Who gave it value? The government? No! Its value was created by the company, by large expenditure of money, by promoting settlement, by fulfillment of its contract. Before the steel was laid across the prairies the land was not worth ten cents an acre, because inaccessible for commercial purposes. Even in 1885, after the rails had been laid, the government did not place a higher price upon the land than \$1.50 per acre, which figure was deemed excessive by the Globe and its political friends.

One would infer from some of the criticisms that the whole Canadian Pacific system was promoted, paid for, and handed over to the company by the people of Canada; that the earnings of the company belong, at least in large measure, to the people, and that the great prosperity of the enterprise should be ensured rather than commended. What is the fact? The price the government paid for the railway is insignificant when contrasted with the amount invested by debenture and shareholders. The railway was considered by investors so poor a proposition, even with its "princely heritage" of land, that the original share issue of \$65,000,000 realized only 46 per cent. of face value, and at one time these shares were offered on the stock exchange at 33, with few buyers.

If today the lands of the company have large value, that value has been given them by the company. When the lands were handed over by the government for full value received, and much more than full value, indeed, they were practically worthless; and when these lands are appraised as a subvention or purchase payment, they should be appraised at their value in 1880, when the contract for the building of the railway was made, not at the value given them in 1919 by the enterprise, expenditure and able management of the company.

## Heart Palpitated Could Count Every Beat

When the heart begins to palpitate, it will beat fast for several seconds, then slow, then start to flutter, and a feeling of utter depression will come over your whole system, accompanied by weak, fainting and dizzy spells.

When the heart gets into this condition, you become weak, worn and miserable, and are unable to attend to either social, business or household duties.

Milburn's Heart and Nerve Pills will give prompt and permanent relief to all sufferers from any heart weakness or nerve derangements.

Mrs. Walter Greives, Apsley, Ont., writes: "I had been run down, and doctors told me I was anemic, but did not help me with their medicines. I could not sleep nights, my heart palpitated so, and I could count every beat."

I used to have such dizzy spells I would have to go to bed. I was not able to do any work for eight months. A cousin of mine had taken Milburn's Heart and Nerve Pills and told me what they had done for her. I took eight boxes of them, and now I am able to help every day with the work. I am so thankful to tell others what they have done for me, so that they may try this great and wonderful remedy. I hope this may prove good to someone who is suffering the way I did."

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## Bush Fires in Rainy Lake District

Between Virginia and International Falls, Gangs Are Out

St. Paul, Minn.—Several bad fires were reported to State Forester W. T. Cox. Heavy rain is necessary to put out the flames, although all are reported "under control." Rangers' reports say fires are making "acute situation."

Several square miles of valuable timber were burned northeast of Mantrap Lake. More than 100 men of Virginia and Rainy Lake Lumber Co. are fighting the fire between Virginia and International Falls, and other fires are running between Vermillion and Rainy Lakes. The most serious are on Vermillion River.

Some people seem to know everything except the fact that they don't know how much they don't know.

## Judge Wants Power To Deport Aliens

Ontario Chief Justice Says Present Machinery Utterly Insufficient

Toronto. — In its presentation to Chief Justice Sir William Mulock, the Grand Jury at the Assizes reported that the majority of cases it had been called on to deal with had been of a serious nature: murder, attempted murder, and manslaughter. "We have been impressed by the fact," the presentment read, "that the foreign elements contributed largely to these serious cases, and this grand jury endorses any legislation to limit the influx of foreigners to this country. It is the opinion of this grand jury that any steps taken towards the deportation of these undesirable now within the country would be greatly in the interests of the country at large."

Sir William remarked that the machinery for deportation was utterly insufficient, and added that he did not see why there should be any statute limitations. Every court, he thought, should have the right to try and deport aliens. Some aliens came to the country, remained quiet for a time, but eventually their early environment reasserted itself.

The cereal crops of the United States were worth over \$7,000,000,000 to the farmers who raised them in 1918.

## Never Troubled With Headache

This Relief From Suffering Fully Appreciated by the Writer of This Letter — Tells Others How Cure Was Effected

South Fork, Sask., June 9. — Mrs. Letts, of this place, has a happy experience to relate. She suffered terribly with headaches, but headache medicines never seemed to help her.

The trouble came from torpid, sluggish action of the liver, kidneys and bowels, and when this condition was overcome by the use of Dr. Chase's Kidney-Liver Pills, the headaches disappeared, and Mrs. Letts felt that her health was greatly benefited.

Mrs. A. E. Letts, South Fork, Sask., writes:

"I suffered from terrible headaches, so severe, I thought, sometimes, I would go crazy from them. No remedy I ever tried helped me until I used Dr. Chase's Kidney-Liver Pills. Since using these I can say I am never troubled with headaches now, and feel much better generally."

This statement is endorsed by Mr. O. P. Cole, Postmaster at South Fork, Sask.

Mrs. F. L. Harris, Keatley, P.C.E., Sask., writes:

"I was suffering from liver trouble — had a heavy pain under one shoulder-blade all the time, and was nearly as black as dirt around the eyes, so I concluded to try some of Dr. Chase's Kidney-Liver Pills. I did so, and before I had taken one 25c box the pain had left me, and I commenced to gain in flesh, and by the time I had taken two boxes I was completely cured and felt like a new person. My trouble was caused by heavy work out of doors, and, of course, heavy eating, and constipation. I would advise anyone suffering from kidney or liver trouble to give Dr. Chase's Pills a trial."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, at all dealers, or Edmundson, Bates & Co., Limited, Toronto. Refuse substitutes. The genuine bears the portrait and signature of A. W. Chase, M.D., on the label.

## Wins 20,000 Francs

For being the first aviator to successfully land his plane on the roof of a building, J. Vedrines, noted French flier, was awarded a prize of 20,000 francs. Vedrines landed on the top of the Galerie Fayette, Paris, an area about 45 x 80 feet. Additional credit for this remarkable achievement is given him because the spread of his planes was only a little less than the width of the roof.

## LILY WHITE Corn Syrup

For Preserving

Thousands of the best housekeepers have discovered

that using half sugar and half Lily White Corn Syrup makes preserving more uniformly successful.

To start with, the consistency is bound to be just right from the very nature of the syrup; there is no danger of the preserves crystallizing; the syrup brings out the natural flavour of the fruit; the keeping quality is excellent and the preserves do not have the cloying sweetness of all sugar.

For better preserves, use Lily White Corn Syrup.

Sold by Grocers everywhere—in 2, 5, 10 and 20 pound tins.

## Armenia's Claims For Independence

President of Delegation at Peace Conference Summarizes Events

New York, N.Y.—Armenia's case for independence was stated in full by Avetis Abaonian, president of the Armenian delegation at the peace conference, in the memorandum he presented to the conference some time ago, a copy of which has now been made available to this office. The memorandum, which summarizes the series of events in northern Armenia which culminated in the establishment of the Republic of Armenia, concludes as follows:

"It is this republic, whose government and parliament sit in its capital, at Erivan, which has delegated us as its representatives to the peace conference, and has charged us to submit to it the following:

"1. Russia, in abandoning the Armenians to their lot, in spite of their prayers, in bequeathing to them a war which it was manifestly beyond their power to carry on; in handing over to Turkey by the treaty of Brest-Litovsk, without even consulting them, the Armenian provinces of the Caucasus, Kars, Ardahan, and Naghishman, thereby causing incalculable injury to hundreds of thousands of Armenians, has, by these very acts and of her own free will, broken for ever all ties existing between Russia and Armenia.

"2. The Republic of Armenia, accordingly, believes itself justified in demanding the immediate recognition of its independence, which has been merited and won upon the field of battle, and which the success of its arms has obliged even its enemies to recognize.

"3. Taking into consideration this war, which Armenia has waged all alone for the defense of the cause of the allies and the superhuman sacrifices which all the Armenians have made, I have now the honor to claim, in the name of the Armenian nation, the place which Armenia has justly merited at the peace conference, beside Emir Faizal and the representatives of the Zecho-Slovaks, Poles, and Serbs.

"4. The delegation of the Armenian Republic submits that it acts in all its demands and proceedings in perfect accord with the Armenian delegation from Turkey, presided over at Paris by His Excellency Boghos Nubar Pasha."

The first sperm whale found on the Californian coast in forty years was discovered in Monterey Bay by rock cod fishermen, who found the carcass off Point Pinos. The fishermen reported that the whale—which was 65 feet long—had been killed by a species of dolphin called the "killer." Its tongue had been eaten out. The whale was towed in and sold to a local fish company, and ten barrels of case oil were obtained from its head.

## WOMAN'S NERVES MADE STRONG

By Lydia E. Pinkham's Vegetable Compound.

Winona, Minn.—"I suffered for more than a year from nervousness, and was so bad I could not rest at night—would lie awake and get so nervous I would have to get up and walk around and in the morning would be all tired out. I read about Lydia E. Pinkham's Vegetable Compound and thought I would try it. My nervousness soon left me. I sleep well and feel fine in the morning and able to do my work. I gladly recommend Lydia E. Pinkham's Vegetable Compound to make weak nerves strong."—Mrs. ALBERT SULTZE, 608 Olmstead St., Winona, Minn.

How often do we hear the expression among women, "I am so nervous, I cannot sleep," or "it seems as though I should fly." Such women should profit by Mrs. Sultze's experience and give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial.

For forty years it has been overcoming such serious conditions as displacements, inflammation, ulceration, irregularities, periodic pains, backache, dizziness, and nervous prostration of women, and is now considered the standard remedy for such ailments.

# Minor Modifications Of Treaty Terms

New York.—The Associated Press issues the following:

In Paris the Council of Four continues to discuss points brought out by the German counter-proposals to the German peace treaty, especially as concerns territorial questions and reparations.

Experts on both these questions have been called before the council for conferences, and the belief apparently prevails in unofficial quarters in Paris that some modifications may be expected in the original terms of the treaty, particularly as regards the Saare basin and Silesia.

Discussion of the protest of Germany that being left without merchant ships, she is rendered impotent to resume her trade, and thereby unable to aid in paying the indemnities asked, also has been taken up by the council.

The expectation is that the council will heed reports of the urgent necessity to render a quick decision on the matters in controversy owing to the situation in Germany.

One report has it that Herr Noske, the German minister of defence, has inspected the coast defences and ordered the garrisons to be ready for emergencies.

An appeal to the United States people by magistrates of 200 German municipalities, representing virtually half the population of Germany, has been signed. It demands a "peace of justice," under President Wilson's 14 points, and protests against the continuation of the blockade against Germany.

Paris.—These are anxious days throughout peace conference circles, with both the German and Austrian treaties in the balance, and every effort is being made to secure early and united action. Many private conferences are going on, including one between A. J. Balfour, British Foreign Secretary, and Col. House, of the American delegation, all seeking to clarify the situation and determine the course of action.

The prevailing view of those taking part was hopeful of early and satisfactory results. They admitted that the conditions were difficult and the differences were rather sharply drawn, but insisted that there was nothing like an impasse or anything threatening an agreement. Indications were that certain general results are already beginning to take form. The German counter-proposals, as a whole, undoubtedly will be rejected, but a number of suggestions may be embodied in the allied treaty, not with any purpose of modifying or softening the document, but for the purpose of making it workable and achieving the supreme end of getting it signed and restoring peace.

Certain concrete results appear to be taking form, namely the fixing of reparations at a definite sum around one hundred million marks, instead of giving the commission indefinite authority to assess beyond that sum, reducing the period of occupation of the western frontier from fifteen to twenty years.

Readjustment of the Silesia terms at which Germany was greatly aroused, so that the population may secure self-determination, probably through a plebiscite. With respect to the League of Nations, the British and United States view at first inclined toward admitting Germany, on the ground that it would bind her to keep peace. But France would not consider any association with Germany. So it is understood that Pres. Wilson has gradually come to M. Clemenceau's view of keeping Germany outside the league.

Besides making the amount of the reparations definite, the time for the first payment may be extended. The allies have fixed two years; the German counter-proposal asks seven years. The experts suggest a compromise of four years.

The German complaint that they will be without merchant ships, it is suggested, will be met by the allies chartering a limited number of ships so that the resumption of trade will permit the payment of reparations.

## Value of Experience

If the average man could live his life over he would probably be a bigger fool than ever.

## G.W.V. Would Probe Labor Unrest

Suspicion That Workers Are Being Systematically Robbed By Profiteers

Toronto.—An immediate effort to reach the solution of the labor unrest manifest throughout the country is demanded by the provincial executive of the Great War Veterans' association, which has been in session here. The executive calls for "drastic steps to deal with the labor, food and clothing situation by the present cabinet."

The unanimous opinion of the executive was that their efforts to find employment for returned soldiers were fruitless because of the labor unrest. This unrest, the executive believes, is largely due "to suspicion that the workers are being systematically robbed by profiteers."

The executive calls for a solution of the high cost of living. It asks for representation upon any committee which is chosen for investigating the question.

## Petrograd Threatened

Enemies of Bolshevism Are Moving Against the City

Omsk.—A Bolshevik dispatch from Moscow, dated May 24, gives the text of a proclamation of the executive commission of the Bolshevik party as follows:

"The Petrograd front, until recently, was for us a matter of secondary importance. During the last days the situation has changed entirely. The enemies of Bolshevism have decided to take Petrograd, and the Finnish and Estonian White Guards, as well as troops of General Udenich, Col. Belokhovetich and Gen. Rodzianke are moving against the city.

"This unexpected attack has brought about great demoralization in our ranks. Every minute counts. All of us must rise to defend Petrograd."

An unconfirmed report has reached Copenhagen that Petrograd has been captured by Finnish and Estonian troops.

## Allies Stop General Strike

German Protest Against Rhenish Republic

Coblenz.—A general strike throughout the occupied area was declared by the Germans as a protest against the reported launching of the Rhenish republic at Wiesbaden. It was brief, however, being only four hours in duration, the workmen returning to their labors after being warned of the consequences by the allied military authorities. The principal strikers were railway employees and the street car workers at Treves and Coblenz.

When the news of the strike became known, word was sent the leaders that unless the Germans returned to work by 1 o'clock the leaders and all the other strikers would be deported into sections of Germany unoccupied by allied troops. The inter-allied railway commission reported that all the workers had returned to their jobs. Newspapers in Coblenz printed stories denying the birth of the German republic at Wiesbaden, and asserting that the report was an effort on the part of certain Germans to mislead the population of the Rhineland.

## German Chancellor's Declaration

Versailles.—A member of the German delegation with the rank of councillor of legation, who returned here recently from Berlin, made this declaration concerning the peace treaty: "We will sign, despite all, because we will be backed to pieces if we return to Berlin without signing."

## Air Squadron for Russia

London.—Col. Collishaw's all-Canadian air squadron for Russia includes Captains Kinkhead and Slater, of Calgary; H. J. McDonald, Victoria; Morton and Breakey, Toronto; Brittain, of Ontario; Lindsay, Toronto; Green, Peterboro; Atcp, Manitoba; Sidebottom, Quebec; and Richford and Fall, Vancouver.

## Murderous Italians

Two Austrians Killed at Hamilton, and Two Wounded

Hamilton, Ont.—Two Austrians were fatally shot and two others fatally wounded at the Tuckett Arm, on the Beach road.

Eight Italians, who claimed they were liquor detectives, insisted on searching the house for liquor. They lined up the ten Austrians who occupied the house, and at the point of revolvers went through their pockets. After securing \$1,800, they deliberately shot into the line of Austrians, who were unarmed and who did not resist. Four of them fell, two mortally wounded, and the Italians escaped.

## Amir's Treachery

Military Position of British in Afghanistan Is Satisfactory

London.—Reuter's learns that the position in Afghanistan from the military viewpoint is much improved. Probable developments from the Amir's latest move cannot be fore-shadowed until more definite information with regard to Afghan attitude is available, but it may be pointed out that the Amir's letter to the viceroy and his orders to his generals, both contain glaring inaccuracies.

The suggestion that the Afghans were obliged to take defensive measures on any British act is, of course, quite untrue. The fact is the Afghan troops crossed the border at a dozen places and were mobilizing against our frontier as rapidly as possible when they received no provocation whatever.

## Wish to Join Sweden

Stockholm.—The Landsting of the Aland Islands has sent to the Peace Conference a resolution demanding the reunion of the Aland Islands with Sweden. The resolution was adopted unanimously at a meeting of delegates at Mariehamn.

## Lithuania Wants Investigation

Paris.—The Lithuanian authorities have demanded that the Peace Conference appoint a commission to investigate alleged pogroms by Poles, in parts of Lithuania occupied by Polish forces.

# Postal Employees Are Discharged

## Austria Is Apathetic

Willing to Accept Conditions as Laid Down and Thus Bring Peace

New York.—The Associated Press issues the following:

Like the German government, the Austrian government is said to be dissatisfied with the peace terms of the allied and associated powers, which are declared by one of the responsible newspapers of Vienna to be unacceptable.

Unlike the German populace at large, however, the Austrian people apparently are apathetic, having expected no easy terms, and are willing and even anxious to accept the conditions as laid down, and thus bring peace to the sorely stricken former empire, which is rendered by the treaty virtually an inland state of small territorial proportions.

## U.S. Bomb Terrorism

Effect of Outrages Is to Prepare New and Severe Penalties for Convicted Perpetrators

Washington.—Investigation of the bomb explosions at eight cities, which were intended to kill public men, has convinced secret service chiefs here that the outrages had a common source, and that they probably can be classed as an unsuccessful attempt on the part of a still-unknown anarchist group to resume a reign of terrorism, begun with the May-Day attempt to deliver a series of infernal machines through the mails out of New York.

Washington police devoted their efforts to re-assembling fragments of the man who was killed at the door of Attorney-General Palmer's home, while attempting to plant his cargo of explosives. Mr. Palmer himself dismissed the incidents today as "utter failure to terrorize the country and stay the hand of the government," which purpose he ascribed to the authors of the outrages.

Government experts on explosives after surveying the site of the explosion here and the partially demolished dwelling, came to the conclusion that two separate bombs exploded, probably when the man carrying them tripped over a stone in the entrance.

In both houses of congress, members began the preparation of measures providing new and severe penalties for convicted perpetrators of such crimes.

## Order Arrest of New President

Berlin.—The German government has issued an order for the arrest of Dr. Dordan, the president of the new Rhenish republic, the North German Gazette announces.

The government also, the newspaper states, has entered protests both at Paris and at Spa, the headquarters of the armistice commission, against the behavior of the French authorities in the occupied area of the Rhineland.

## Tribute Paid to Railway Employees

Honor Roll Unveiled at Montreal Carrying Names of Eighty-One C.P.R. Apprentices

Montreal.—As a tribute to the 81 C.P.R. apprentices who enlisted for overseas service during the war, an honor roll was unveiled at the August shops in the presence of Mr. Burns, works manager, Mr. Muir, assistant works manager, and a representative gathering of foremen and apprentices. Mr. C. Kyle, supervisor of apprentices, occupied the chair. Mr. Burns paid a fitting tribute to the boys who had paid the supreme sacrifice, and asked the apprentices to be worthy of the sacrifice made by their comrades while fighting to make this a better world for other people to live in. He commended the progress being made in school and shop, and referred especially to the good work done at the evening classes, and to the prize given by the Montreal council of arts and manufacturers. The C.P.R. itself gives five scholarships for proficiency in mathematics and mechanical drawing, while 380 apprentices get two hours instruction each week.

Ottawa, Ont.—That the government is determined not to reinstate post office employees who went out on a sympathetic strike in the West and declined to return to duty when requested to do so, seemed clear in two telegrams sent by Sir Robert Borden, one to R. Sincks, secretary of the central strike committee, Calgary, and the other to V. Hollingsworth, secretary of the Alberta Methodist conference.

The prime minister's telegrams were in reply to messages received by him. The message from Mr. Sincks to the premier conveys a long resolution passed by the Brotherhood of Dominion Express employees condemning the announcement by Postmaster-General Blondin, that postal employees on strike should be considered dismissed.

The telegram concluded: "The central strike committee notes in passing that the Dominion government, after having been appealed to to settle present crisis in a manner satisfactory to labor, has answered the appeal by taking up an antagonizingly retaliatory attitude. The people's government is once more asked to stand behind the people, not against them."

The telegram from the Alberta Methodist conference covered a resolution passed by that body, expressing the view that the action of the government "cannot but perpetuate rather than alleviate the social unrest, and to be subversive of the principles enunciated by the commission on labor legislation accepted by the peace conference, in the preparation of which Sir Robert Borden is said to have had a leading part."

The telegram called upon the government to repeal its action and expressed the opinion that employees of governments, municipal, provincial and federal, must be guaranteed the right of effective protest against wrong conditions.

Sir Robert Borden's reply to the secretary of the central strike committee was as follows:

"It is desirable that your attention should be called to facts which your committee has not taken into consideration. The government has always been prompt to give its best consideration to the demands of all public servants. In doing so it has no purpose to serve other than the public interest. It can only act under the mandate of the people's representatives in parliament and always as trust and guardian of the public interests. The postal employees were bound by obligation and by oath faithfully to serve the people of Canada. They went out on strike in Winnipeg, not in respect of any grievance of their own, but in alleged sympathy with employees of private companies. They were given three days within which to return to their duty, and they were distinctly informed that they must make a choice between directions received by them from the strike committee and the duty which they owe to the people of Canada. Some of them returned. Those who persevered in the strike took their course deliberately and with full notice of the consequences which would inevitably follow.

"In other western cities before any strike took place a most distinct and positive intimation was given to postal employees that abandonment of their public duty, obedience to the directions of another authority and participation in a sympathetic strike would mean their permanent retirement from the public service. The people of Canada cannot tolerate the proposal that under such circumstances civil servants shall be permitted to violate their engagements, to dislocate the public service, to occasion intense public inconvenience and suffering, and to put aside all respect for public duty. The government cannot reinstate men who have deserted their posts under such circumstances unless it is prepared to abandon all effective attempt to maintain the national services.

## Taxation of Land According to Value

### A Better System Than That of Levying Taxes on Acreage Basis

When a rate of taxation amounting to about \$2 per quarter section was the total tax required to be levied on the lands in the Province for provincial or municipal purposes, the fact that these taxes were levied on a flat rate of so much per acre, regardless of the value of the land, did not cause any particular complaint, as while it was not a fair basis of taxation, the amount of taxes payable on each quarter section was so small that no particular hardship was caused, and the fact that a man owning a quarter section worth about \$1000 paid as large a tax as a man owning a quarter section worth \$4000 was not given much consideration. As the years went on it was necessary to raise the rate of taxation and to levy additional taxes. With increased taxation it became very evident that the levying of taxes on an acreage basis was not fair. It is admitted that it is impossible to levy taxes on an absolutely fair basis, but the increasing of the amount of taxes payable on a quarter section made it clear that a system of taxation whereby a quarter section worth only about \$1000 was taxed as high as one worth \$4000 was not just. Under such a system of taxation, taxes are not levied in accordance with the ability to pay. At a rate of say 10c per acre, a man with a quarter section worth \$1000 pays \$16 taxes, so does the man with the quarter worth \$4000. That is the man with the greatest ability to pay, pays only the same amount of taxes as his poorer neighbor who has land worth one quarter as much. That is for the purpose of taxation the value of the property owned by the man with the poorer land is rated much higher than its real worth, while in the case of the man with the more valuable land, his property is rated at much less than it is worth.

In considering the merits of any system of taxation, the matter must be approached from the standpoint that taxes should be paid according to the ability to pay; and looking at it in this way, there does not appear to be any sound argument against the system of levying taxes according to value, rather than on an acreage basis. This principle having been recognized in connection with taxes levied directly or indirectly for the benefit of the Province at large, the different Acts through which the Province derives revenue from taxes on lands were amended at the last session of the Legislature by legislation introduced by the Minister of Municipal Affairs, so that beginning with the year 1920, all taxes levied by the Province, either directly or indirectly, will be levied according to the value of the land, and not according to the area. That is, all taxes levied on lands outside of organized school districts under the Educational Tax Act; taxes levied on all lands in the Province under the Supplementary Revenue Act; taxes levied on lands outside of organized municipal districts under the Improvement District Act, and taxes levied on lands subject to taxation under the Wild Lands Tax Act will be levied according to the value of the land taxes. The only exception will be the taxation of lands leased from the Dominion Government and in these cases the taxes will still be levied on an acreage basis, but as the rate is low it does not create any great hardship.

In preparation for this work, all

lands outside of organized municipalities are now being valued under the direction of the Minister of Municipal Affairs and municipal districts which are not already levying their taxes according to land values, will be required to value all their lands for the purpose of taxation under the Supplementary Revenue Act next year.

The basis of taxation is the cash value of the land without taking into account any improvements made upon the land by the expenditure of capital or labor. In working out this cash value there are only three matters that are required to be taken into consideration, namely:

First—The nature of the soil.

Second—The nature of the surface; that is, whether it is broken by ravines, coulees or timber, and so on.

Third—The distance of the land from a shipping point.

As the comparative values will only change under exceptional circumstances, as for example, where a new railroad passes through a locality; and as this is the third and last consideration it will be noted that once a value is fixed there will not be very much change for some years. This being the case, provision has been made for a valuation by municipal districts only once in every five years, thus reducing the work and expense in connection with the levying of taxes. The first valuation under this scheme will be the valuation in the year 1920, the next in the year 1925, and so on. Provision has of course been made for the valuation in any year of land which becomes liable to taxation during that year, so that the fact that the general valuation is made every five years, will not exempt land from taxation which becomes liable to assessment and taxation during any year other than that in which the general assessment is required to be made. Tax notices will of course be issued each year.

While a change from an acreage system of taxation to one according to one of value will cause extra work, matters will soon adjust themselves so that there should be no difficulty in administering a system of taxation along these lines. The fairness of taxation according to value will, if the matter is given due consideration, appeal to all fairminded people as a better system of taxation than the acreage system which makes the owner of poor land (generally a poor man) pay the same amount of taxes as the owner of good land, who is generally a wealthier man and better able to pay.

One of the main objections to taxation of land according to value has arisen from the fact that many landowners are under the belief that if taxes are levied according to value, the owner will have to pay taxes on the value of the land, together with the value of the improvements placed upon it by hard labor and by expenditure of money. Such, however, is not the case. All provisions in the laws of the Province in regard to taxation of farm lands, requires the valuation of these lands for taxation purposes to be made on raw land basis and there is no tax on the increased value of lands because of the improving of these lands by the expenditure of money or labor. That is, a man who improves his farm by cultivation, building of fences and putting up of buildings is not punished for doing so by having to pay taxes on such improvements. Raw land values being equal, the owner of unimproved land has just as large a tax to pay as the man who improves his farm, and if he is making no use of his land, has, in addition, to pay a Wild Lands Tax.

### WESTERDALE

The Westerdale Methodist church is having great success with the community half holiday inaugurated under its auspices. Large numbers are turning out on Saturday afternoons. A base ball club was organized with Mr. W. Swingle as manager, and Mr. Bert Gilmore as captain. The ground is being cleared and much excitement is anticipated in connection with the games that are to be played.

A committee is now seriously taking in hand the children's work, and good times are assured for all.

If you want to enjoy a real good time Westerdale is the place, and all you have to pay is the energy expended on play and laughter.

## Does a Farmer Need a Truck?

THE farmer with a Ford Truck practically lives next door to the market.

He has a choice of markets. He becomes more independent.

He can market his goods when and where he pleases.

He sells his crop to the very best advantage.

And his hauling costs him less—in labor and money.

It is not only cheaper to haul with a Ford Truck than with a team and wagon, it is quicker, it is easier work.

Consider the time and labor the farmer can save with a Ford Truck. With a team the trip to town takes the better part of a day.

A Ford Truck makes the same trip in two or three hours.

When labor is so scarce, what farmer can afford to waste day after day of his valuable time?

Ford Trucks Complete with Body and Enclosed Cab

Ford One-Ton Trucks are now supplied, if desired, with standard truck bodies in two types, the Stake Body and the Express Body.

In both standard bodies the cabs may be supplied with or without doors as desired.

See these complete Ford Trucks. Consider the matter from every angle: the cost of feeding horses against the cost of running a Ford Truck; the time you lose on the road; the money you lose by being so far from the best markets. There is only one conclusion you can come to. You will have a Ford Truck.

## A GRAND MEDICINE FOR LITTLE ONES

Mrs. Avila Noel, Haut Lameque, N. B., writes: "I can highly recommend Baby's Own Tablets as they have worked wonders in the case of my baby. I always keep them in the house and would not feel safe without them." What Mrs. Noel says concerning Baby's Own Tablets is just what thousands of other mothers say and feel. The Tablets are a mild but thorough laxative which regulate the bowels and stomach, thereby banishing constipation, colic, indigestion and a host of other minor ailments of little ones. The Tablets are absolutely guaranteed to be free from opiates or narcotics or any of the other drugs so harmful to the welfare of the baby. They cannot possibly do harm—they always do good. They are sold by medicine dealers, or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Biggest Saloon Closed

Average Daily Bank Deposits Have Been \$5,000

At Bridgeport, Ohio, the biggest saloon in the world went out of business when Ohio became dry under an amendment to the state constitution. This saloon is located in a city of 4,200 inhabitants, just across the Ohio river from Wheeling, W. Va. It was owned and operated by Sam Ungerleider. It employed 77 bartenders and clerks and had 216 feet of bar. For the last year or two its average daily bank deposits have been \$5,000, or \$1,825,000 a year. It has made Bridgeport famous in the Ohio valley.

Mr. Ungerleider is 36 years old and is a millionaire. He says he never smoked or drank intoxicating liquor. He estimates that since 1915 approximately 20,000 drinks a day have been sold over his bar. He also asserts there has never been a fight in his saloon. He attributes this largely to the fact that he would not sell to a drunken man or a minor.

## Rhine Republic Is Not Unanimous

Berlin.—The inhabitants of Mayence and Weisbaden began a 24-hour strike in protest against the attempted coup in proclaiming an independent Palatinate republic. ## SUFFERING CATS! GIVE THIS MAN THE GOLD MEDAL

Let folks step on your feet hereafter; wear shoes a size smaller if you like; for corns will never again send electric sparks of pain through you, according to this Cincinnati authority.

He says that a few drops of a drug called freezone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts right out.

This drug is a sticky ether compound, but dries at once and simply shrivels up the corn without inflaming or even irritating the surrounding tissue.

It is claimed that a quarter of an ounce of freezone obtained at any drug store will cost very little, but is sufficient to remove every hard or soft corn or callus from one's feet. Cut this out, especially if you are a woman reader who wears high heels.

## Swedish Government Asks For Plebiscite

### To Determine Nationality of Aaland Islands

Paris, France.—The Swedish Government has sent the peace conference a note asking that a plebiscite be taken as soon as possible to determine the nationality of the Aaland Islands, lying between Sweden and Finland, at the entrance to the Gulf of Bothnia. "The note reads: "The Royal Government feels that it must insist upon the conference taking into consideration as soon as possible the question of the rights of the population of the Aaland Islands to decide by a plebiscite, carried out with the necessary guarantees, whether the archipelago is to belong to Sweden or to Finland.

"The Royal Government presumes that on account of the principles expressed at the peace conference, Sweden will be allowed to take part in the discussion of this question. It is needless to add that the Royal Government greatly wishes that if the plebiscite gives the islands to Sweden, measures shall be taken to prevent the construction of military buildings in the archipelago, and also to prevent attacks on the archipelago by another power."

than to wait until the fly swarm forces you to it.

Keep them out of the house at the beginning of the season, and it's easier to keep them out all the season.

See that your screens are sound in frame and wire.

See that they fit tight—flies can get through very small holes or cracks.

If you find that your set of screens is not complete, or that some are worn out, call and get the sizes you need out of our stock.

We have a new stock of all standard sizes in doors and windows.

Special sizes made to order.

## AROUND THE TOWN

Last Saturday was the longest day in the year.

Mrs. C. M. Blomquist of Lewiston, Idaho, is visiting with her daughter and son-in-law, Mr. and Mrs. Perry Barnes.

Will the person who took care of the hair switch belonging to the late Mrs. W. Sick at the time of the accident, please return to Mr. W. F. Sick.

Didsbury football club attended the sports held at Carstairs last Friday and defeated the local club in a closely contested game lasting nearly two hours, the score standing 1-0.

On Friday afternoon last the ringing of the fire bell created some excitement for a few minutes. A small blaze started in the Stevens garage, but was soon extinguished without the aid of the chemical.

Quite a number of loose and broken planks in the board-walks in town need attending to before someone meets with serious injury, and cause the town to pay heavy damages that might have been avoided by the expenditure of a few dollars.

Mrs. George S. Harrison went to Holy Cross Hospital a short time ago to undergo an operation for appendicitis, which was successful and Mrs. Harrison will be able to return home in a few days.

Keep in mind the dance in the Opera house on Friday evening, the 27th, after the lawn social. Good music will be provided. Ice cream and lemonade will be sold during the evening. Dancing will start at 9 and continue until 1 a.m. Price of admission, \$1 per couple. x

On Friday afternoon a fierce gale sprang up which produced a dust-storm that licked up small pebbles and sent them hurling skyward in large clouds and which had the appearance of large fires at a distance.

Owing to the extreme heat of the past week every strong wind that blows raises blinding storms of dust.

Since the vacant lots on Railway way avenue, which have been used for the purpose of tying teams for the last two or three years, are now to be built on, the Council have decided that a part of the town pound, on the corner of Shantz and Osler streets, may be used for this purpose. Posts have been put in and farmers will now be able to use the corner for this purpose.

For the past week and more Sunny Alberta has been giving emphasis to its name to a most unusual degree and sufficient to remind the sons of Bruce county of the old days down there when the thermometer would register 95 in the shade. On Sunday Didsbury came close to that point at 92, but we have the advantage of cool evenings in Alberta over that of Ontario, which minimizes our other grouches considerably.

Didsbury district is greatly in need of rain just now, otherwise the crops may suffer. In some places oats about a foot high are prematurely headed out. In the Sunnyslope district R. J. Falk reports everything looking fine so far, owing to some good showers recently, but should the dry spell continue the outlook will not be encouraging. To the far north and south better conditions prevail, but the coming change of the moon in a few days it is hoped may bring the much needed rain to freshen up the growing grain around Didsbury.

The Pioneer is constantly in receipt of pamphlets and bulletins relating to farm work, from the Dept. of Agriculture at Ottawa and also Edmonton. These treat a variety of subjects, including the garden, poultry, bee culture, etc. Valuable information can be obtained from these pamphlets also for the dairy industry, which is making such rapid advance in this district. We have a limited number of these pamphlets which can be had by calling at the Pioneer office, or they can be had free by writing to the publication branch of the Depts. at either Edmonton or Ottawa.

### The Cutworm

Referring to the ravages of the cutworm, B. Oxley, editor of the Home Gardening section of the Calgary Herald, says: "Contrary to my own experience, we are told that poisoning is always a valuable and profitable method of controlling cutworms in market gardens. The bulletin gives the following recipe for poisoning. It is the same that I have used, with the exception I had bran instead of shorts for the mash:

Shorts	50 lbs.
Paris Green	1 lb.
Molasses	1 gallon
Water	1-2 gallons

Crude beet molasses is recommended as the best. Stir the molasses into the water. Add the solution slowly to the Paris green and shorts and thoroughly mix. Apply to infested area, preferably in the late afternoon, as the cutworm is a night feeder. If the top soil is very dry, rake the mash in after applied, as the cutworm feeds just below the surface. Where the devastation has been complete in local gardens, I advise re-sowing, as the cutworm changes into chrysalis form about the middle of June and his depredations cease. I have been told of many so-called remedies, such as salt, lime, liquid manure from poultry dung, etc., but have proved them to be efficacious. Another good recipe is: Dissolve one pound of Paris green in 150 gallons of water. Take bunches of green clover, grass or weeds, and dip in solution, then scatter thickly along the rows of growing seedlings that are being destroyed."
